

## Non Random Pendant Light

Designer: **Bertjan Pot**

Manufacturer: **Mooodi**

£709

### DESCRIPTION

**Non Random Pendant Light** by **Bertjan Pot** for **Mooodi**.

The Non-Random light is made in opposition to the Random light in that the resin yarn making the translucent shade is applied in a very organised way around its oblong support, creating a light criss-cross pattern.

The 2009 Non-Random light is as much a sculpture as it is a suspension light. It brings softness and some magic to any interior.

The Non-Random light is another classic piece of lighting from the Random family typified by its powder-coated aluminium shade.

### DIMENSIONS

Small - 48dia x 54cmh

Large - 71dia x 70cmh

# MATERIALS

Reflector in forced aluminium. Epoxy drained fibreglass. Available in two sizes. Black and white.

Small:

Input voltage: 220-240V
