DESCRIPTION

Colorado Rug by **Inge Sempé** for **Nanimarquina**.

Inga Sempé's inaugural design for Nanimarquina, Colorado, is a testament to the enduring beauty of ancient techniques. By skilfully employing methods like chobi (hand-knotted) and kilim (flatweave), the rug attains richness through its diverse textures and heights.

The rugs are available in four nuanced colours which change depending on the lighting condition; this is an inherent result of utilising hand-spun wool with the chobi knotting technique.
