DESCRIPTION

Lattice by **Ronan & Erwan Bouroullec** for **Nanimarquina**.

The Bouroullec brothers continue their study of simplicity and elegance with their new Lattice collection.

Technically complex, the Lattice collection combines colours in a rhythmically reproduced pattern. In this manner, balance, proportion and irregularity become key elements in this unique creation. As well as being crafted by hand, the Afghan wool is also spun by hand, which allows for some unique colour tones to be highlighted.

Lattice I is the original colourway (deep blue) and Lattice II is the second version (beige).

Please note, custom sizes available on request. **Contact us** for details.
