

Blur rug

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Nanimarquina**

£2,204

DESCRIPTION

Blur rug by **Ronan + Erwan Bouroullec** for **Nanimarquina**.

The iconic Blur rug features the use of sequenced geometric shapes and repetition, a signature of the Bouroullec brothers.

When the rug is seen at a distance, the pattern takes on a different surface giving the name to the collection. At a closer view of the rug, the lines and geometric shapes are revealed, giving it a different appearance.

The blurred appearance is done through a laborious technique traditional to the way kilims are traditionally woven. The change in weaving creates an aged rug with the impression of the blurred lines by mixing two colours unevenly.

Available in a range of sizes and colours.

Runner rug is only available in green.

Please note, custom sizes available on request. **Contact us** for details.
