

Navy bar stool, 1944

Designer: **Emeco design**

Manufacturer: **Emeco**

~~Was £976~~ Now £829

DESCRIPTION

Navy bar stool by **Emeco design** for **Emeco**.

First designed in 1944 for the United States Navy, the Navy range had to withstand the most rigorous conditions onboard warships and submarines in active service. A process was designed to strengthen aluminium, which in turn enabled Emeco chairs to be very light and very durable.

Today, Emeco continues to employ these processes in its expanded range, which are well suited to domestic and commercial projects.

Please note; the **minimum order is 4 stools**.

DIMENSIONS

46w x 54d x 76/109cmh

MATERIALS

Emeco stools are made by hand, from 80% recycled aluminium. It takes 77 steps to manufacture this stool which is designed to last for 150 years.

Available in a brushed or polished finish.
