

Fox Floor Light

Designer: **Bernhard Osann**

Manufacturer: **Nemo Lighting**

£971

DESCRIPTION

Fox Floor Light by **Bernhard Osann** for **Nemo Lighting**.

The Fox floor light is a dynamic and playful floor light that can be utilised in a variety of settings. The black painted steel structure of the light has a bent arm that can move side to side. The aluminium shade acts as a spotlight and is also movable allowing for any orientation of the light beam.

The dimmable light comes with an optional honeycomb filter to reduce glare and diffuse the light.

"All my designs are dynamic, I playfully incorporate movement, flexibility and balance on different levels. I simplify the objects and reduce the material input to a minimum and hence expose these dynamics". - Bernhard Osann.
