

## Zirkol Circle Pendant

Manufacturer: **Nemo Lighting**

**£1,155**

### DESCRIPTION

**Zirkol Circle Pendant by Nemo Lighting.**

The Zirkol Circle pendant is a stylish, minimalistic pendant that features a subtle, extruded aluminium body and opal diffuser. The pendant works well as a singular light or combined in numbers to create an eyecatching, decorative ensemble.

The Zirkol Pendant collection is available in a range of shapes and sizes. The collection utilises anodized aluminium to create contemporary and minimalist pendants, in three colours and with the choice of downlighting or up-downlighting.

Available with downlight or up-downlight, referring to the direction of the light source, with a downlight being a direct emission of light, and an up-downlight featuring the same direct light as well as an indirect upward glow.
