DESCRIPTION

Separat Divider Screen by **Cecilie Manz** for **Nikari**.

Founded in 1967 in Finland, Nikari combines modern design with Finnish craftsmanship to produce sustainably made solid wood furniture.

The Skandinavia Separat space divider/screen, designed in 2018 by Cecilie Manz, is as elegant as it is ingenious; the Separat consists of ash or pine wood sections held together by naturally tanned leather hinges. The wood and leather age together, developing a beautiful patina over time.

twentytwentyone is the exclusive agent of Nikari in the UK.
