DESCRIPTION

December Chair by **Jasper Morrison + Wataru Kumano** for **Nikari**.

Designed in 2012 by Jasper Morrison and Wataru Kumano, the December Chair is an informal seat constructed from high-quality natural materials, offering exceptional comfort through its low stature and the gently reclined angle of the seatback. The light, minimal design complements both modern and traditional interiors.

"It's a basic but comfortable low chair with a slightly rural character and definite Scandinavian influence, the kind of chair you would have in a country house near the fire, though it could work in a city apartment or a hotel lobby just as well."
