

## Skandinavia KVP12UP Table

Designer: **Kari Virtanen**

Manufacturer: **Nikari**

£1,779

### DESCRIPTION

**Skandinavia KVP12UP Table** by **Kari Virtanen** for **Nikari**.

Designed by Kari Virtanen in 2014, the Skandinavia collection was engineered for heavy commercial use, emphasising both style and durability. The silhouettes and craftsmanship draw inspiration from the rich heritage of Nordic cabinet-making and seamlessly complement various spaces and design sensibilities.

The KVP12UP Tables feature a clever hanging device underneath, facilitating easy chair attachment. This is a practical solution for efficient cleaning in commercial settings and protects the table surfaces without the need to invert the chairs.

Available in five sizes and crafted from three different woods, each table offers the option of a veneer plywood or white laminate tabletop.

Minimum order quantity of 10.

twentytwentyone is the exclusive agent of Nikari in the UK.
