

Mainichi Secateurs

Manufacturer: **Niwaki**

£42

DESCRIPTION

Mainichi Secateurs from **Niwaki**.

For daily pruning in the garden, these secateurs are a great choice. The sturdy catch of the Niwaki Mainichi Secateurs at the bottom offers smooth action, even with wet or muddy hands. The spring is also securely in place to avoid accidental release.

The direct action of these Japanese secateurs provides a precise and efficient cut. The bright yellow colour makes them easy to spot in the garden and great for locating in the compost heap. These secateurs are suitable for cuts ranging from 10-15mm, depending on the type of plant and the user's strength.
