Noboru Step Ladder

Manufacturer: Fritz Hansen

£332.50

DESCRIPTION

Noboru Step Ladder by Fritz Hansen.

The functional and practical step stool, Noboru, is named after the Japanese phrase 'to climb'. It features a step which slides under the frame for easier storage, converting into a stool or side table at the same time. Beneath the step is a short handle, allowing the user to pull the step out and put it back in to place. The clever design allows the assembling to be visible giving the Noboru its visual character.

Well built and stable, the Noboru Step Ladder is very reliable as well as being made from FSC approved wood.

DIMENSIONS

45w x 31d x 47cmh

MATERIALS

Available in solid FSC certified oak.
