

Acrilica 281, 1962

Designer: **Joe Colombo**

Manufacturer: **Oluce**

£3,164

DESCRIPTION

Acrilica 281 table light by **Joe Colombo** for **Oluce**.

Designed in 1962 by Joe Colombo, the Acrilica 281 table light is 'more a work of kinetic art than a lamp'. The significant curve is made from acrylic and its thickness and curve meant that due to its conduction properties, the light from a fluorescent lamp contained within the painted steel base moves through the transparent body, eventually lighting the head in an incredible way.

The table lamp gives indirect and diffused light.

DIMENSIONS

24dia x 24cmh

MATERIALS

The table lamp is made from acrylic and has a lacquered steel base in black and a PMMA transparent diffuser/reflector.

Bulb:

1 x W4.3x8.5d max 6W (included)>
