DESCRIPTION

Alba Floor Light by **Mariana Pellegrino Soto** for **Oluce**.

The Alba range is inspired by nature. A single droplet of water provides the inspiration behind Alba's smooth, blown glass diffuser. This contrasts neatly with the square outline of satin brass to create a modern but classic light.

The Alba 382 floor light features a single downward-facing opaline glass diffuser on a right-angled branch.

The Alba 383 floor light features one downward-facing diffuser and one upward-facing diffuser in opaline glass.
