

Stacking Chair

Designer: **Lucian Ercolani**

Manufacturer: **Ercol**

£310

DESCRIPTION

Stacking Chair by **Lucian Ercolani** for **Ercol**.

This 1957 chair was cleverly designed to stack vertically. The original was widely used by meeting rooms and schools, before the dawn of the ubiquitous polypropylene chair. Now it forms an ideal chair for when you have extra visitors, whilst when not in use a stack of these chairs makes a dramatic display.

DIMENSIONS

45w x 49d x 47/80cmh

MATERIALS

Ash timber, available in a range of finishes or lacquered in a variety of colours.

Please see all the wood finishes PDF in the Product downloads section.

Available for purchase for contracts customers only.
