

Olla Hydrating Plant Diffuser

Manufacturer: **Pepin**

£19

DESCRIPTION

Olla Hydrating Plant Diffuser by **Pepin**.

The Olla Hydrating Plant Diffuser by Pepin is a natural solution to keeping your plants hydrated. To use it, simply place the diffuser in the soil, leaving the glazed upper part visible, and refill with water once a week.

Utilising the natural characteristics of clay to retain, absorb and return water to plants, the Olla regulates the rate of water release naturally, adjusting to the specific needs of each plant. The diffuser optimises hydration while requiring minimal intervention, making plant care easy.

Each Olla is handmade by artisan potters in Europe.

DIMENSIONS

8dia x 14cmh

Capacity: 250ml

MATERIALS

Microporous ceramic.
