Physix Studio chair, 2017

Designer: **Alberto Meda**

Manufacturer: **Vitra**

~~Was £950~~ Now £807

DESCRIPTION

Physix Studio chair by **Alberto Meda** for **Vitra**.

The structure of Physix is based on the idea of creating a continuous seat shell by stretching a single textile panel between two side members. With its design, the chair assumes its place in a long line of iconic chairs while taking the typology to yet another level.

Using state-of-the-art materials and production technology, Alberto Meda orchestrates an interplay of three elements to create a new dynamic sitting experience: a flexible frame construction, an elastic cover and a stabilising mechanism.

Together these three characteristics form an ingenious construction that explores new possibilities of dynamic sitting through the interaction of flexible and rigid elements.

Please note: There is a choice between hard castors or soft castors. Please enquire for more information.

DIMENSIONS

Adjustable 40-52cm seat height, 66.5w x 71.5d x 97-116cmh

MATERIALS

Frame and armrests in deep black polyamide with a singular sling panel drawn across the seat and back in **TrioKnit knitted fabric or FleeceNet woven fabric.**
