Olive Picto Watch, Grey Leather Strap by PICTO.

Established in 1984 by Steen Georg Christensen and Erling Andersen, the Picto company provides a new take on time, aiming to ease the pressures associated with it. The minimalist watch challenges traditional mechanical watch concepts with its timeless design, making it suitable for all occasions.

The Picto watch stands out with its unique portrayal of time as a perpetual-motion pictogram, a pioneering wristwatch feature. The rotating dial uses a dot to represent hours, while minutes are indicated by a traditional hand.
