Picto Watch | Yellow Leather Strap

Manufacturer: **Picto**

£99.17

DESCRIPTION

Picto Watch | Yellow Leather Strap by PICTO.

Started by the Danish duo Steen Georg Christensen and Erling Andersen in 1984, the Picto watch encourages you to take your mind off time-related stress and concentrate on the moment. The Picto watch challenges the traditional understanding of a mechanical watch. Its minimalist design is timeless and great for any occasion as well.

The minimalist, clean graphics on the watch allows it to provide a picture of time like no other watch. It is also the world's first wristwatch that displays the time as a pictogram – or an icon of the time in perpetual motion.

The watch indicates the hours by a dot on the rotating dial, while the minutes are indicated by a conventional hand.
