### DESCRIPTION

**PP586 Fruit bowl** by **Hans Wegner** for **PP Mobler**.

The Fruit Bowl is a result of a rare occasion: Wegner uses the wood turning technique to create a stand-alone object. In this case, he did not allow himself to be concerned about practical issues and made a truly extravagant design showing what great elegance such an expressive carving of solid wood can offer.

The Fruit Bowl is unique in Wegner's work and has no predecessor or alternative versions. It is a one-off piece of art that states the high point of the golden era of Modern Danish Design in the 1950s.
