

PP85 Cross Legged table, 1955

Designer: **Hans Wegner**

Manufacturer: **PP Mobler**

£5,487

DESCRIPTION

PP 85 extending table by **Hans Wegner** for **PP Mobler**.

Hans J. Wegner designed the crosslegged table in 1955. The Cross Legged table shows Wegner's ability to create an optimal design with very few means. The table is now 50 years old but seems more topical than ever.

The cross construction with the metal stretcher is minimalistic, light and extremely strong. The typically crossed legs are a simple and elegant solution to a basic requirement that table legs should take up as little space as possible.

This design is now approximately 60 years old, yet it appears more topical than ever, encompassing the essential need for simple, practical and usable products produced with respect and concern for the environment to have a very long life span.

The table can be expanded by 86cmd with **extension leaf**, available from the product range below.

***Please note extending leaves must be purchased with PP85 table**

DIMENSIONS
