

Odin chair, 2016

Designer: **Jamie McLellan**

Manufacturer: **Resident**

£990

DESCRIPTION

Odin chair by **Jamie McLellan** for **Resident**.

Initially designed for a line of boutique alpine properties in Niseko, Japan, the Odin chair takes influence from its situational environment in Japan and minimalist Nordic design.

Its humble design combines die-cast aluminium legs with a single piece of steam-bent ash to create a structural harmony. The ash is sourced from a forest in Sweden where lightning frequently strikes, resulting in wood with unique, sizzled grain lines.

The striking seat is available in two finishes, natural or black-stained, with the option of an upholstered seat.

DIMENSIONS

60w x 52d x 45/75cmh

MATERIALS

Made from ash veneer in either natural or black, with cast aluminium frame.

Available with an upholstered seat in Maharam Messenger, Onyk 029.
