DESCRIPTION

Eiermann 2 Dining Table Small by Egon Eiermann for Richard Lampert.

The Eiermann 2 dining table, a true icon in furniture design, was designed in 1965. Its minimalist structure strikes a perfect equilibrium between substance and sturdiness.

Inspired by Egon Eiermann's initial table framework, Richard Lampert reimagined the Eiermann 2 by integrating central metal crossbars. This innovative design ensures ample leg space on either side, rendering the Eiermann 2 table exceptionally versatile for dining or conference purposes.

The Eiermann Table 2 boasts a versatile design, meticulously crafted with attention to detail. It is available for quick delivery in Melamine White or Black Linoleum tabletop options, accompanied by a 66cm high base in a sleek black finish. Furthermore, this dining table is available in various sizes and finishes here to suit your preferences.

Note: Height adjustment rods and rubber caps are included. The tabletop can be screwed to the frame using a top fixing set which can be purchased separately.

Additional accessories are available [here](#).
