

Tatu Alta Floor Lamp, 2021

Designer: **André Ricard**

Manufacturer: **Santa and Cole**

£840

DESCRIPTION

Tatu Alta Floor Lamp by **André Ricard** for **Santa + Cole**.

Andree Ricard drew inspiration for the iconic Pop-Art lamp, Tatu, during a transoceanic flight. While reading about Argentinean wildlife on a plane, he noticed the overhead reading light could illuminate his book without disturbing his companion seated next to him. This observation sparked the design of the Tatu lamp, a flexible and playful table lamp with a carefree expression.

The Tatu range has been expanded to include a floor lamp, ideal for providing light to readers seated in armchairs. With its versatile and adaptable design, the Tatu Alta is a timeless classic that blends aesthetics and function flawlessly.

DIMENSIONS

23dia x 116cmh

MATERIALS

Made of gyratory metal and ABS plastic in white grey or red.

Available in red or Santa & Cole white.

Santa & Cole have further enhanced the design with the introduction of LED technology, with adaptable light intensity (0-100 %) and including an adjustable converging lens that changes the width of the beam from narrow (30°) to wide (50°).

Integrated dimmer and switch incorporated into the luminaire.
