

Sasawashi Exfoliating Mitt

Manufacturer: **Sasawashi**

£10.83

DESCRIPTION

Sasawashi Deep Exfoliating Scrub Mitt by Sasawashi.

Sasawashi homewares and bathroom accessories are made from a unique range of textiles woven from bamboo fibres. In addition to being environmentally sustainable, these woven textiles have natural antibacterial qualities that are ideally suited to cleansing the skin.

The Kumazasa plant is a species of Japanese bamboo which has been prized for centuries for its beneficial antibacterial properties. Kamuzasa leaves were traditionally used to wrap food, especially sushi, to preserve it and prevent it from spoiling. They were also used to make a variety of natural remedies to fight infection and promote healing.

Today, the Sasawashi company spins Kumazasa fibres into thread which can be woven into a variety of textiles that are light, lint-free and capable of absorbing twice as much moisture as cotton. They also have a natural exfoliating quality.

The Sasawashi deep exfoliating scrub mitt is roughly textured to invigorate and rigorously cleanse your skin in the shower. Softening when running under warm water, the mitt is designed for intensive weekly use, the coarse surface buffing away dry skin and calluses.

A highly practical bathroom accessory featuring a corner loop to hang dry after use.

Wash separately, do not bleach.

Air dry in a well-ventilated room.

DIMENSIONS

14 x 20cm

MATERIALS

100% Washi paper pile, polyester foundation cloth and cotton/ linen hem.
