

Nelson Saucer Bubble Pendant

Designer: **George Nelson**

Manufacturer: **HAY**

£539

DESCRIPTION

Nelson Saucer Bubble Pendant by **George Nelson** for **HAY**.

The iconic mid-century Bubble Light was designed by George Nelson in 1947 and was first put into production in 1952. The Saucer pendant delicately floats overhead, providing a soft, diffused light.

Inspired by a set of silk-covered Swedish pendant lamps that he felt were too expensive, Nelson created his own modest orb lighting series. Rather than silk, he used a self-webbing plastic developed by the military to form the translucent shell over a lightweight, rounded-steel frame.

The renowned Bubble pendant forms part of the permanent collection at the Museum of Modern Art, New York.

Available in four sizes.

Bulb (not included): 60W/120V bulb (small), 150W/120V bulb (other sizes).

The Bubble Pendant collection comprises a series of organic shapes and sizes. See 'More products in this range' below.

Manufactured by Herman Miller and distributed in the UK by HAY.

DIMENSIONS

Small: 44.5dia x 18cmh

Medium: 63.5dia x 25.5cmh

Large: 89dia x 35.5cmh

Extra Large: 127dia x 56cmh

MATERIALS

The Saucer Bubble pendant is made of an off-white webbing polymer with a ceiling plate in brushed nickel. Each lamp is provided with a white 183cm PVC isolation cable. Please note hard wiring is required.
