

## Series 430 Chair

Designer: **Verner Panton**

Manufacturer: **Verpan**

~~Was £594~~ Now £504

## DESCRIPTION

**Series 430 Chair by Verner Panton for Verpan.**

In 2015, Verpan rediscovered the Series 430 chair in the Panton archives. Its existence remained largely obscure since its initial debut in 1967, as it only had a brief production.

After coming across the design, Verpan took Verner Panton's original sketches and notes and revived this timeless design to meet current standards.

Panton's vision for the 430 chair was one of simplicity and creating comfort akin to an armchair. To achieve this, he ingeniously incorporated traditional webbing into the fully upholstered seat, allowing it to adapt to the body's weight and form a cosy, enveloping backrest, all supported by a slender frame.

Highly versatile, the chair is suited to various environments, whether the home, office, or restaurant.

Minimum order quantity is 2 pcs per fabric/colour.

The Series 430 range also includes a barstool, stool and table.

## DIMENSIONS

54w x 51.5d x 82cmh

Seat: 46dia x 47cmh
