

Xlibris Wall Desk

Designer: **Kasper Eistrup**

Manufacturer: **Sibast**

£935

DESCRIPTION

Xlibris Wall Desk by **Kasper Eistrup** for **Sibast**.

Xlibris was originally inspired by Eistrup's personal need for a shelf for use in his atelier. In collaboration with Sibast Furniture, two versatile pieces were designed: a sleek wall-mounted, self-supporting shelf and a complementary table, embodying an ultra-slim silhouette and a light style reminiscent of Japanese origami art.

Xlibris is a great example of merging craftsmanship and functionality. The wall desk features a concealed cable outlet, allowing for an elegant connection of your laptop, smartphone, or lamp to the power grid. The assembly of this wall-mounted desk shows no visible screws for seamless integration into your living space.

DIMENSIONS

80w x 50d x 50cmh

MATERIALS

Made with FSC certified oak wood with brushed brass details.

Available in natural oil or smoked finish.
