

Overlap bench, 2017

Designer: **TAF Architects**

Manufacturer: **Skagerak**

~~Was £1,125~~ Now £956

DESCRIPTION

Overlap bench by **TAF Architects** for **Skagerak**.

Launched in 2017, The Overlap family of outdoor furniture by TAF Architects has a simple and sturdy leg system formed from folded sheet steel and inspired by the intersection of a scissors' blades.

Suited to both indoor and outdoor use all year round, the Overlap bench can be easily combined with a table or may simply stand alone. An Overlap **rectangular table** and **round table** are also available.

DIMENSIONS

200w x 36d x 43cmh

MATERIALS

The rounded section of the steel legs softens the angular appearance of the bench legs, which overlap at the top in order to support a seat made of solid, untreated Western Red Cedarwood.

The striking contrast between the powder-coated steel legs and rustic wooden plank seat ensures Overlap feels at once contemporary and solidly traditional. In addition, the untreated tabletop will weather with use and acquire a unique patina and character.

Available with Hunter green powder-coated legs.
