Snow A chest of drawers by **Jonas Bohlin** for **Asplund**.

They infused classic design elements from Sweden with a global outlook to produce the Snow series, a collection of intentionally simple storage units adorned with practical cutout handles as the only decorative feature.

Since its launch, the Snow collection has become a beloved Swedish favourite because of its unique appearance, exceptional quality, and versatility. The Snow range is still produced by hand in Tibro, a town dedicated to furniture-making in southern Sweden.

Snow A comprises 4 drawers that offer ample storage space.

A wide range of sizes and variations are available both for the home and for the office.
