

PL2 Portable Lamp

Designer: **George Sowden**

Manufacturer: **SOWDEN**

£92

DESCRIPTION

PL2 Portable Lamp by **George Sowden** for **SOWDEN**.

PL2 belongs to the SHADES collection, created after Sowden discovered that soft silicone, a non-toxic and easy-to-clean material, could diffuse light while maintaining its aesthetic qualities over time.

These lamps offer soft, comfortable lighting that stands out even when turned off due to their unique proportions and colourways. Their compact and lightweight design makes them easy to transport, whilst the adjustable dimming settings provide the ideal light for any task.

The PL2 lamp contains two 18650 lithium-ion rechargeable batteries, meaning the light can be utilised without using the USB cable. This is beneficial when you don't want to wait for charging to complete and can simply swap out the batteries for quicker results.

A fully charged battery provides up to four hours of light at maximum brightness. Additionally, the shade is removable for easy cleaning.

DIMENSIONS

18dia x 30.5cmh

MATERIALS

Made from ABS, aluminium and silicone.

A USB cable is supplied for charging the battery.

Battery life from full charge is 4 hours to 10 hours, depending on the degree of brightness.

It takes about 3 hours for a full charge.

Light source: Li-ion 3,7V, 2600 mAh

Suitable for indoor and **dry outdoor use** only.
