

Spindel planter

Designer: **Willy Guhl**

Manufacturer: **Eternit**

£300

DESCRIPTION

Spindel planter by **Willy Guhl** for **Eternit**.

The Spindel planter, also known as the diabolò, has an hourglass-like shape. Tapering in the middle, the Spindel can not only be used as a planter but as a sculptural addition to your home or garden.

Eternit's fibre cement is almost entirely made from natural, raw materials; Portland cement from the Swiss mountains, cellulose fibres from plants, a minimal amount of synthetic reinforcement fibres and water.

Thanks to sourcing the raw materials locally and the low energy manufacturing process, Eternit has ensured the material can be as environmentally friendly as possible. All Eternit products are made by hand in Switzerland.

DIMENSIONS

Medium: 37dia x 60cmh

Large: 56dia x 92cmh

MATERIALS

Fibre cement composed of: Portland cement, cellulose fibres, synthetic reinforcement fibres and water.

Care instructions: Dirt can be gently removed with a mixture of water and a little vinegar using a non-abrasive sponge. Always clean the entire surface to maintain a uniform colour.
