

Steelwood Shelving

Designer: **Ronan and Erwan Bouroullec**

Manufacturer: **Magis**

£720.83

DESCRIPTION

Steelwood Shelving by **Ronan + Erwan Bouroullec** for **Magis**.

As the name suggests, Steelwood combines solid beech with steel. With every joint and component clearly visible, Steelwood brings an industrial essence to any given space. The modular design allows for a variety of configurations. Build up a combination of units to create a contemporary library wall or useful shelving in an office environment.

DIMENSIONS

2 shelf module 92w x 40d x 54cmh

3 shelf module 92w x 40d x 93cmh

4 shelf module 92w x 40d x 132cmh

MATERIALS

Solid beech frame (uprights and crosspieces) available in a natural or powder-coated finish; powder-coated steel joints and painted MDF shelves.
