DESCRIPTION

Stoff Nagel Candle Set by **ester + erik** for **STOFF Nagel**.

The ester + erik designed hand-dyed taper candles are meticulously crafted to fit into STOFF Nagel candle holders seamlessly. With a long and tapered silhouette featuring a cone-shaped bottom, these candles are constructed from paraffin wax and a cotton wick, chosen for their sustainable and high-quality attributes.

Paraffin wax, with the smallest carbon footprint among resins, ensures these candles are drip-free, self-extinguishing, and burn slowly, leaving no residue in your candle holders.

The cotton wick, selected for its lower impact on the indoor climate than traditional wicks, releases fewer particles.

The candle set is a box of 6 candles.

Burn time is approximately 4 hours.
