Stoff Nagel Candlestick

Designer: Werner Stoff

Manufacturer: Stoff Nagel

£42

DESCRIPTION

Stoff Nagel Candlestick by Werner Stoff for STOFF Nagel.

The Stoff Nagel candle holder system is a classic of mid-century design, conceived by German architect Werner Stoff in the 1960s.

Previously only available as a sought-after vintage item, the Stoff Nagel candlestick is now reissued in brass as well as its original stainless steel finish.

Each Stoff Nagel candlestick unit has three tubular candle holders linked in tripod form by a triangular element. Units can be combined and built up into elaborate structures which can be as symmetrical or freeform as you desire.

Please note: the price is for the candle holder only. The STOFF Nagel Candles can be purchased separately and can be found in the related products below.

DIMENSIONS

MATERIALS

Made of zinc, available with a chrome or brass finish.
