

Museum Candle Holder

Designer: **TAF Architects**

Manufacturer: **String**

£135

DESCRIPTION

Museum Candle Holder by **TAF Architects** for **String**.

Designed by TAF Architects, the Museum Candle Holder is a flexible accessory that allows for a candle's height to be vertically adjusted. Its simple and understated appearance, offered in a variety of muted hues, makes it suitable for a range of interior settings, such as living areas, dining halls, and bedrooms.

The candle holder makes an excellent addition to a dinner setting, as you can easily lift the height of the candle as it burns to ensure that the light remains at a comfortable level for your guests.

DIMENSIONS

13w x 40d x 15cmh

The highest height for the candle is 35.5 cm, and the lowest height is 3.5 cm

MATERIALS

Powder coated aluminium.
