

Sunset Swivel Chair

Designer: **Christophe Pillet**

Manufacturer: **Cappellini**

£2,850

DESCRIPTION

Sunset Swivel Chair by **Christophe Pillet** for **Cappellini**.

Designed by Christophe Pillet for Cappellini in 1997, the Sunset swivel chair is characterised by the sinuous lines of its shell, which harmoniously contrast with its rigid base.

The swivelling seat has been meticulously crafted from curved beech wood, whilst the base is made from stainless steel.

Both the seat and the base are customisable, with the base available in a matte lacquered finish in white, mud or black, and the seat in a range of fabric and leather upholstery.

Sunset has obtained the Greenguard Gold certification: a standard that ensures maximum guarantees for emission control in products designed with the utmost attention to health and well-being.

DIMENSIONS

82w x 64d x 41/75cmh

MATERIALS

Easy chair on swivel base made from satin finish stainless steel, with seat and back in bent beech plywood padded with polyurethane foam. Fully upholstered in a large range of fabrics and leathers, including white/black spotted leather.
