

Modus chair, 1972

Designer: **Centro Progetti Tecno**

Manufacturer: **Tecno**

£636

DESCRIPTION

Modus chair by **Centro Progetti Tecno** for **Tecno**.

The Modus chair was created in 1972 by Tecno's Design Centre as a chair with multiple functions for the Graphis office system. The chair was created with the larger picture of creating a series of chairs which can be created by intelligent combinations of various components, making it suitable for different environments.

The chair features a 4-star die-cast aluminium base and polished black polyamide body. The chair is also equipped with armrest, height adjustable feature and castor wheels.

DIMENSIONS

56w x 51d x 75/88cmh

MATERIALS

Die-cast polished aluminium base with polished black polyamide seat. Castors included

Available in more finishes. Please contact us for more information.
