

P32 Lounge Chair, 1956

Designer: **Osvaldo Borsani**

Manufacturer: **Tecno**

£3,362

DESCRIPTION

P32 Lounge Chair by **Osvaldo Borsani** for **Tecno**.

Designed in 1956 by Osvaldo Borsani, the P32 armchair was a pioneer in chair design with its innovative combination of seat movements. The armchair features a backrest pivot mechanism. The seat also swivels and returns to its original position automatically.

An ideal chair for home or office, the design features a steel tube structure with reinforcement ties. The armrest is integrated into the shape of the backrest. The chair is available with upholstery in three different fabric groups with flexible polyurethane foam padding. The base is available in a satin nickel finish.

The armchair is also available in other finishes upon request. View the product specification pdf in the download sections for finishes sample. Please get in touch with us if you're interested in other finishes.

DIMENSIONS

85w x 80d x 83cmh

MATERIALS

Tubular steel structure with elastic belt reinforcements. Satin nickel base finish. Cushion in flexible polyurethane foam with upholstery in three different fabric groups.

Please view the product specification in the Product Downloads section for upholstery samples and enter the upholstery details below.
