DESCRIPTION

Sori Yanagi Kettle by **Sori Yanagi**.

Sori Yanagi's stainless steel Kettle is characterised by its broad base, lightweight construction, and durability, all of which combine to ensure rapid heating without compromising aesthetics.

This practical design is made in Niigata, Japan, a region celebrated for its craftsmanship in stainless steel goods. More than 15 factories participate in the kettles' production, with many components crafted by hand.

The Sori Yanagi Kettle was recognised for its exceptional design and functionality in 1998 when it was awarded the Good Design Award.
