

Travel Tumbler

Manufacturer: **Kinto**

£34

DESCRIPTION

Travel Tumbler by **Kinto**.

Designed in Japan, the Travel Tumbler is a practical and functional way to stay hydrated on the go, reducing the use of plastic bottles and disposable coffee cups at the same time.

Made of durable 18-8 grade stainless steel with a double-walled vacuum construction, this travel flask for hot and cold drinks works efficiently to preserve the temperature of its contents and ensure your refreshment. Maintains hot contents at above 65°C for six hours and cold contents at below 8°C for six hours.

The simple cap system allows you to drink with ease from any angle, and an internal structure holds ice cubes within the body of the flask.

DIMENSIONS

7dia x 17cmh, 245g
Capacity 350ml

MATERIALS

Made of 18-8 grade stainless steel with polypropylene and silicone lid. BPA Free

Available in black or khaki.

Please note, the tumbler is not dishwasher-safe.

The high-quality stainless steel interior is highly durable and rust-resistant while a smooth, electro-polished interior prevents staining and makes it easy to clean.
