

Natural sheepskin

£60

DESCRIPTION

Natural sheepskin

Sheepskins have historically been used by modernist architects such as Frank Lloyd Wright, Alvar Aalto and Eileen Gray both on the floor as rugs and on furniture.

Our selection of sheepskin throws is produced by one of the UK's oldest tanneries, whose production began in 1879 and has been acknowledged with a Royal Warrant.

Available in the cream shade.

Please note that in all cases, each skin is unique, so colour and sizing may vary.

DIMENSIONS

(approx.) 0.53 - 0.63 sqm

MATERIALS

Natural sheepskins. They are not bleached but are prepared using environmentally-conscious processes which maintain natural colour and tone.
