

Unterlinden Pendant Light, 2014

Designer: **Herzog and de Meuron**

Manufacturer: **Artemide**

£381

DESCRIPTION

Unterlinden Pendant Light by **Herzog + de Meuron** for **Artemide**.

Originally designed specifically for use in a museum context, the Unterlinden light was designed to offer a continuous and concentrated source of light via a COB LED.

Unterlinden blends a crafted appearance with the highest technical specification. The light has a die-cast aluminium or brass body with a textural appearance reminiscent of wood grain. The interior of the shade is mirror-polished. A highly efficient optic polymeric lens within the shade works to focus the light generated.

DIMENSIONS
