

1005 Hans Ceiling, 2023

Designer: **Hans-Agne Jakobsson**

Manufacturer: **Vaarnii**

£625

DESCRIPTION

1005 Hans Ceiling by **Hans-Agne Jakobsson** for **Vaarnii**.

Hans-Agne Jakobsson's wooden lamp shades stemmed from the designer's exploration of the characteristics of pine veneer, particularly regarding its interaction with light. The lamps have since been re-engineered by pine specialists Vaarnii as part of their first venture into lighting.

The ceiling lights come in two dimensions and showcase the graphic silhouette of concentric plywood circles. With their generous proportions, they emit a warm glow that filters through, accentuating the unique tone and grain of the pine. Being a natural material, the strips possess a dynamic and self-shaping quality, meaning each strip is unique in character.

DIMENSIONS

Small: 42dia x 21cmh

Large: 55dia x 26cmh

MATERIALS

Once a popular material amongst Finnish artisans, Vaarnii wants to revive the use of Pine Wood within furniture construction.

The Hans ceiling light is made from a combination of solid pine wood and pine veneer.

The pine wood is harvested from sustainably managed Finnish forests, is PEFC certified and slow grown, finished with a stain-resistant, transparent, matte oil wax.

As a result of the naturally occurring oils and resins in the wood, pine develops a rich honey colour over time.

Please note: due to the soft nature of pinewood, the material is prone to developing scratches and dents. Vaarnii believes these markings are to be celebrated and viewed as building to the uniqueness and charm of the product.

Small recommended light source: 1 x E14 LED filament lightbulb.

Large recommended light source: 2 x E14 LED filament lightbulb.
