

Reflect Table Light

Designer: **Verner Panton**

Manufacturer: **Verpan**

£480

DESCRIPTION

Reflect Table Light by **Verner Panton** for **Verpan**.

While Verner Panton is best known for his intricate and organic designs, Reflect is a departure from his usual aesthetics. It showcases Panton's ingenuity and understanding of manipulating light to create the desired atmosphere.

Light is emitted upwards from the tubular base and then reflected off the white, disc-shaped shade. The shade is slightly slanted, creating strong yet diffused light.

Although designed in the 1980s, the lamp was only put into production once Verpan rediscovered it in their archives.

Reflect is available in grey and red.

DIMENSIONS

60cmh, shade: 30dia cm, base: 8dia cm

MATERIALS

Powder coated steel in grey or red, vertical rod in satin finish, down facing surface of disc is powder coated white for optimal reflection.

Light source: E14 (220V) max. 10W LED.
