

## Wire Table Lamp

Designer: **Verner Panton**

Manufacturer: **Verpan**

£480

## DESCRIPTION

**Wire Table Lamp** by **Verner Panton** for **Verpan**.

An avid explorer of unconventional norms, Verner Panton often favoured industrial materials like steel wire over traditional choices as they enabled him to explore unusual forms.

In 1972, Panton designed the Wire Table Lamp, a wire-framed lamp with a distinct and lightweight appearance which resembles a light bulb.

The frame, made from chromed-steel, supports a hemispherical shade that softly diffuses the light to create an atmospheric ambience.

## DIMENSIONS

30dia x 42cmh

40dia x 54cmh

## MATERIALS

Frame is made from chrome plated steel.

Shade is made from plastic.

Cord: 220cm transparent with on/off switch.
