DESCRIPTION

Pino chair by **John Tree** for **Very Good and Proper**.

Very Good and Proper has collaborated with acclaimed British designer, John Tree, to create a simple, functional, and comfortable wooden stacking chair. Unlike typical wooden chairs, it comprises two separate parts - a single plywood shell and a solid wooden frame. This unique design enables a hidden bayonet at the junction between the chair's backrest and frame, allowing for a secure construction and minimal clean lines.

John Tree's design pays homage to both traditional solid wood chairs, and more contemporary plywood stacking chairs.
