DESCRIPTION

Eames RE DAW Armchair with Upholstery by Charles + Ray Eames for Vitra.

Eames plastic Armchairs were first presented as part of a New York Museum of Modern Art competition, “Low-Cost Furniture Design”. Their organically shaped plastic seat shells were later combined with various different bases and manufactured in their millions.

The Eames Plastic Chair has undergone numerous refinements and adjustments throughout its conception in the 1950s. To enhance its sustainability the chair shells now utilise recycled materials sourced from German household waste, notably collected through the 'Der Gelbe Sack' (Yellow Bag) system and predominantly from used packaging. This shift from traditional plastic to recycled material not only contributes to a reduction in climate-damaging emissions but also conserves energy.

Eames DAW stands for Eames Dining height Armchair Wooden base

Please note new height introduced 2015 - raising seat by 2cm.

Herman Miller has the sole license for the Charles and Ray Eames collection in the U.S. and the Far East. Therefore the export of these products from the UK to the U.S. is not possible.

DIMENSIONS

62.5w x 60d x 40/83cmh

MATERIALS

Four-legged ash or maple base with black metal cross struts. Select from golden maple, black maple, dark maple or honey-toned ash finishes for legs.

. The seat is made from recycled postconsumer waste.

Please note that due to the nature of the material, the recycled shells will exhibit very subtle specks of pigment. There may also be slight colour variations between seats.

Optional seat upholstery in Hopsak fabric. May be ordered with seat upholstered only or shell fully upholstered. Fully upholstered chairs come with a choice of white or black piping. View the pdf in the download section to explore upholstery colours and options.

All chairs come with **black glides for carpet** as standard.
