DESCRIPTION

Eames DCW chair by Charles + Ray Eames for Vitra.

DCW stands for Dining Chair Wood. The Eames often varied their chair designs by combining one seat shell with different bases. The DCW resulted from Charles and Ray Eames' experiment with moulding plywood into complex forms. Made completely from plywood, the chair is a true mid-century icon and a great choice for modern interiors.

Herman Miller has the sole license for the Charles and Ray Eames collection in the U.S. and the Far East. Therefore the export of these products from the UK to the U.S. is not possible.
