DESCRIPTION

Eames LTR occasional table by **Charles & Ray Eames** for **Vitra**.

Charles and Ray Eames designed the LTR (Low Table Rod Base) as a small, variable side table and even had several different versions of them in the Eames House. Even today there are many of these tables standing there, individually or in groups, decorated with objects from the Eames collection or simply acting as a side table next to armchairs and sofas.

Herman Miller holds the sole license for the Charles and Ray Eames collection in the U.S. and the Far East. Therefore the export of these products from the UK to the U.S. is not possible.
